Sales:

Was the Salesperson on time? Yes

Was the Salesperson courteous? Very Polite and friendly

Was the Salesperson knowledgeable? Very knowledgeable and advised the owner and employees.

What could have the Sales Department, as a whole, have done better?

Nothing - upon receiving our call, Dave came to us.

Installation:

Did you receive a call from the Operations Department confirming the appointment? No, but Mike spoke with us regarding the appointment.

Was the Installer on time? Yes - even early

Was the Installer courteous? Bernie is terrific

Did the Installer respect your Home? Yes - like our home was his home

What could we have done better? Given Bernie all the proper parts on 12/24/14 and give him A Bonus for working on one lift on Christmas Eve Day while other employees either partied or went home early, Bernie was at our Home from 9AM-3PM and then still had to drive back to place of business. Overall Experience: He deserves an added Bonus - don't you think?

What was your biggest fear before hiring All-Ways Accessible? Did it come true, and if not, what happened instead? I don't believe we had any fears. Our friends Jim & Cheryl Keery told us of you and how pleased they were with their chair. It is wonderful NOT TO BE A PRISONER in your own HOME.

What, specifically, was your favorite part of getting your Lift Installation, and why? Enabling my husband to go upstairs to his own bed and to be able to shower to be able to utilize our whole home not just the first floor.

If you were to recommend All-Ways Accessible to your best friend, what would you say? Just allow Bernie to install a chair lift - you won't regret it and Bernie won't leave your home until everything is 100%.
